

DCM 601 Machine Specifications

DCM 601 Short Run Residential System

DCM 600 Advanced Technology to Clean All Ducts Efficiently and Effectively. DCM 600 Machine Has High Torque
DCM 601 Ideally Suited for this Work. Bespoke and Custom Systems by Request

Residential Ducting Sizes

Main trunk up to 12 x 24 inches,
Feeder trunks are from 4 / 6 or 8 inches,
Dryer vents are usually 4 inches.

The DCM 600 is our heavy-duty machine made for cleaning deposits in flex, insulated, steel, round, and rectangular ductwork. It features a sturdy steel cabinet, 1/2hp. motor, 15' Handheld Power Controller, Heavy Duty Air Solenoid (for air flushing at brush head).

The Variable Speed Control gives the operator more control in cleaning various ducts: slower speeds for flex / dryer / insulated ducts and high speed for steel or commercial ducts.

Our system is unique because the brushing unit breaks the static cling of the particles on the walls (ductwork) and compressed air comes out at the brush head to push the debris to the vacuum source. This combination of Brushing and Air Flushing is thorough and will clean round and square ducts. Set the control to forward position and the brush will clean the right side of rectangle ducts. Put the unit in reverse and the left side of the duct is cleaned as well. DCM 601 System Very Cost Effective to Purchase and Maintain.

Specifications Of DCM 600

Horsepower:	1/2HP, forward & reversible
Power Options:	110 V to 240 V
Flexible Shaft Speed:	0-862 rpm (High Torque)
Control Footswitches:	Pneumatic 20' long activates shaft rotation Air flow Forward & reverse rotation by foot pedal
Service Factor:	1.15
Power Cord:	24 ft Electric power cord
Weight (dry):	44 lbs cabinet / 22 lbs frame
Dimensions:	19" x 15.5" x 10.75" cabinet
Frame / Cart:	46"x 21"x17"

Specifications Of DCM 345 Hepa Vacuum

Horsepower:	(3) 1.5HP motors
Power Options:	110 to 240 V
CFM:	400
HEPA Filter:	99.97%
Hazardous Debris:	Yes
Static Lift:	88 inches
Filtration:	5 stage system
Weight:	65 pounds
Freight Weight:	110 pounds
Height:	48 inches
Width:	24 inches

Contractor's Package 601:

DCM 600 Brushing Machine	x 1
Flexible Shaft 35' (FS535)	x 1
Flexible Shaft Tool Kit	x 1
DCB 004 Duct Brush 4 Inch	x 1
DCB 012 Duct Brush 12 Inch	x 1
DCB 014 Duct Brush 14 Inch	x 1
DCB 018 Duct Brush 18 Inch	x 1
DCB 024 Duct Brush 24 Inch	x 1
DCM 345 Hepa Vacuum	x 1
Vacuum Tool Set Complete	x 1
Inflatable Duct Bag 10 – 13 Inch	x 1
Literature Set	x 1
